

Adj. A/Prof Melinda Newnham

BDSc (W.A.) FRACDS DCD (*Perio*) FRACDS (*Perio*) FADI FITI FICD FPFA

I have been a periodontist for many years in Moonee Ponds. I love meeting patients for the first time and value welcoming patients that I have seen before.

My personal interests in my field include aesthetics and dental implant placement, management of peri-implantitis and periodontal treatment in all forms, especially for patients with complex medical profiles.

My current appointments include:

- Consultant periodontist (The Alfred Hospital Dental Unit)
- Academic lead of periodontics (La Trobe University School of Oral Health Sciences, Bendigo)
- Clinical tutor for postgraduate periodontics students (University of Melbourne)
- Study group founder & director (Women in Implantology – WIN Australia).

Lastly, I am a proud parent of two energetic sons. I also love books, puzzles, gaming, cooking, resistance training and being a tourist.
