ABOUT PERIODONTAL MAINTENANCE

Affinity's periodontists A/ Prof. Melinda Newnham & Dr William Cho work in conjunction with our oral health therapists Jessica Buhagiar and Ingrid Sawyer to effectively treat your gum disease (periodontitis).

Periodontal maintenance visits form a critical part of this process.

Jessica Buhagiar and Ingrid Sawyer are experts in systemic health, patient education, treatment of gum conditions and the long-term management of periodontitis. They will assess your individual requirements and provide you with efficient and effective periodontal maintenance care.

A visual guide to what happens during a periodontal maintenance appointment.

We Care for Your Smile

PERIODONTAL MAINTENANCE VISITS

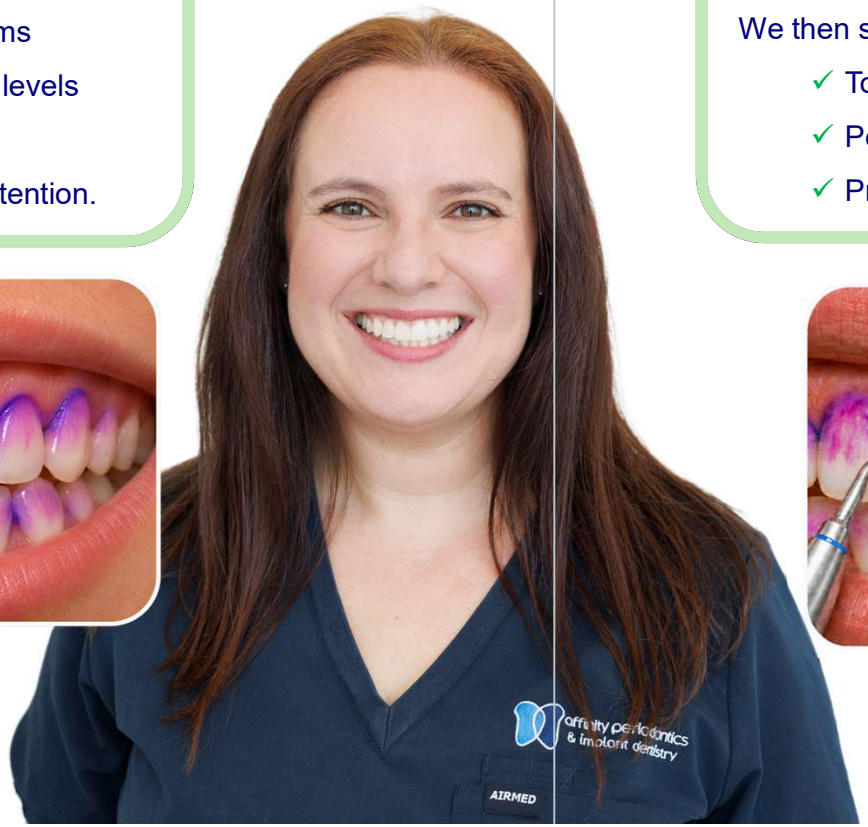

NO PLAQUE = NO GUM DISEASE

1. Periodontal (gum) check-up

We examine, chart & discuss your:

- ✓ Medical & dental concerns
- ✓ Issues with teeth & gums
- ✓ Gum condition & bone levels
- ✓ Home cleaning routine
- ✓ Areas needing extra attention.

2. Professional cleaning & oral hygiene

All deposits are removed from your teeth and gums including stain, plaque and tartar (calculus).

We then show you how to clean effectively at home:

- ✓ Toothbrushing & between teeth
- ✓ Personal cleaning checklist
- ✓ Provide samples of products you need.
